

**Pinal County Age Restricted
&
Seasonal Resident Projects
CAAG Planning/Research Department
July 2009**

CAAG created the age restricted projects database based on development project data provided by Pinal County member agencies and internet resources. The age restricted projects database is used to track age restricted development projects, mobile home and RV parks. All data is collected and reviewed by each CAAG member agency. The database is updated annually and is presently current as of July 2009. The database is maintained using Arc GIS and excel spreadsheets. These files are available upon request through the CAAG license agreement.

This database does not represent a legal survey and is intended for general planning purposes only.
