

PREFACE TO EMPLOYMENT CENTER MAPS

The following Employment Center maps and data were compiled by the Central Arizona Association of Governments. This is a partial compilation and intended to be expanded as more data and information is obtained. Numerous studies that are currently underway in Pinal County have directed the major efforts of CAAG's Planning Department to a specific geographic area within the District. As these projects are completed, additional data will be compiled and maps produced for the remaining Employment Centers within Gila and Pinal Counties.
